

REMARKS

The Examiner has required a restriction to one of the following inventions under 35 U.S.C §121:

- I. Claims 1-13, drawn to a transient dilution air control arrangement, classified in class 73, subclass 23.
- II. Claims 14-52, drawn to a gas sampling system for particulate matter, classified in class 73, subclass 863.

Applicants choose to elect Group I, claims 1-14 drawn to the dilution control arrangement for prosecution. The election is made without traverse and claims 14-52 have been cancelled.

It is respectfully urged that the subject application is in condition for allowance and allowance of the application at issue is respectfully requested.

Respectfully submitted,
